## IPO-International Police Organization

### Special Plaque For IPO Montenegro

On August 28, 2020, the President of the IPO, Security Expert Ilija Životić MSc visited our section in Montenegro and on that occasion awarded the President of the IPO Montenegro, Master of Security Ivan Pečić, a special plaque.

The reason for awarding as the best section is the outstanding results of the IPO team in Montenegro.

## Special Plaque

In just one year, the team in Montenegro has been strengthened with young and quality staff. Men and women are equally represented, which is extremely commendable.

Numerous courses, lectures, seminars and one conference were held. The section in Montenegro managed to present its work to the public in the right way and to become the leader of the civil security sector in this country.

To conclude, the IPO Montenegro section deservedly received this recognition and can really be an example to other sections that exist in our organization.

## MONTENEGRO LEADERSHIP

At the extraordinary session of the IPO presidency held at IPO Headquarters, on the proposal of President Ilija Zivotic MSc, a decision was made to award the golden membership badges to the leaders of the IPO Montenegro section, Ivan Pekic, Emili Imsirovic and Momcilo Scekic.

IPO Montenegro in the previous period had the best results of all other sections. Exceptional professional approach has led to great recognition of the organization in Montenegro. Thanks to that, a large number of cooperation agreements were concluded, membership was increased and a quality relationship was established with the state authorities of Montenegro.

All this was accompanied by a large media presence, thanks to which a larger number of members in the society and the professional public were affirmed.

IPO President Ilija Zivotic MSc and IPO Montenegro Leader Ivan Pekic MSc

# NEW COOPERATION

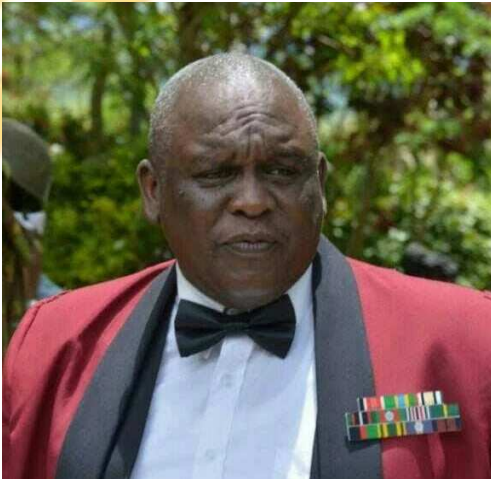

Today a very important cooperation meeting was held between the IPO and the security and investigation company IGSS Italiana Global Security Service with registered office in Livorno and local units throughout Italy.

The IPO Section Leader Italy, Criminologist Dr. Tomori Mareglen, has signed the partnership agreement with the president of IGSS Amm.Dr. Chiellini Narciso.

The collaboration consists in the realization of IPO projects and programs where the IGSS company will offer its professional support by making available the staff, means and office environments throughout Italy where will be develop seminars and training courses based on Security, Investigations and Intelligence.

## Appointment of 1st Vice President IPO Section Kenya

The International Police Organization President Zivotic sends his congratulations to Mr Fredrick Mulandi Mbs Ogw and recognizes him as the 1st Vice President of IPO Kenya who will be in the forefront to officially represent IPO and its values to the Government and all the people of Kenya.

Mr Mulandi who at one time was short listed for the IG appointment although retired now is actively involved in many other organizations security related as well as being a valuable advisor to the National Security Council and a member of task forces from time to time appointed by H.E.

The President of the Republic of Kenya.

We're more than honored to have you on board Afande and you certainly do us proud.

## IPO COMBAT COURSES

IPO in cooperation with Chief Instructor of Combats in IPO, prof. Mladen Burazerovic, has been prepared special courses for police officers, security, bodyguards and VIP protection.

On courses you can learn defense techniques and tactics in fighting and protection. Also there is part prepared for civilians as personal defense.

All techniques are applicable, short and intended for the most efficient defense. Police techniques are prepared to be compatible with the law so that police officers do not have problems with the law when using them.

All program will be available soon on real time seminars when this global problem with Covid-19 is over.

We will also prepare some basic online courses in this field.

## IPO PRESIDENT AT MORNING NEWS

IPO President Ilija Životić MSc, an expert in security and the fight against terrorism, was a guest of the morning program on TV Happy.

This time on the occasion of marking the World Anti-Trafficking Day. Životić spoke about the most dangerous form of human trafficking, human organ trafficking.

This type of organized crime is associated with terrorist organizations in many countries for example with Boko Haram terrorists in Nigeria. President Životić presented several models of this criminal activity and proposed measures that need to be implemented.

The show was attended by well-known lawyer Mr. Milosević, an organ trafficking witness who wrote a book about it, as well as a former member of the state security who got involved via Skype

## New VIP Member

We are happy to inform our members that we have new, high educated member. It is Program Director of the Master of Security and Information Analysis at the American University in the Emirates Dr. Eldar Saljic.

Mr.Saljic is well known security expert in Balkan region and UAE. He has published more than 60 scientific research papers at prestigious scientific journals and he has also been co-author at 8 books about security, policing and similar.

With Dr. Saljic in our team we will have more quality courses and opportunities for different kind of education for our members.

## IPO Section Argentina

Our Section Leader in Argentina Mr. Antonio Sastre with his team is very active. Mr Sastre was member of Police Department in Argentina and has retired at 2013.

This incredible man is more than 40 years dedicated to martial arts. And more than 20 years he is official instructor for Security forces.

Currently, with a great team of outstanding instructors from different forces, it is still linked to training and education, conducting Courses, and Professional Training Sessions for Teaching Instructors.

In the case of the LOCAL POLICE of the Municipalities of ITUZAINGO AND MERLO Antonio Sastre has developed a specific training for the cadets with theoretical training like preparation before very hard psyhical and training with fire arms.

He has various types of training: police methods of self defense, training for bodyguards, military , security etc. We are very proud that Mr. Antonio Sastre is part of IPO Tim.

## Unmanned Aerial Vehicles (Drones) - UAV

### What are drones/UAVs?

An Unmanned Aerial Vehicle (UAV) is an aircraft without a human pilot on board. The term UAV covers a wide range of systems from the small children's toy to large military systems. UAVs are most often referred to as drones and this is how the police service refers to them.

### What drones do Lancashire Police have?

Our drones are small battery-powered rotor systems. Commonly known as quadcopters, they are powered by four electric motors. They take off and land vertically like helicopters.

We use an Aeryon SkyRanger which weighs 2.6 kg including the battery and camera. They can operate in all weather conditions and in winds of up to 65 kilometers per hour.

### How much do they cost?

They cost around £50,000, including the cameras and charging devices.

### What training do the Police Drone Pilots have?

Our pilots are trained to CAA standards and have completed theory and practical tests to achieve the high standard required. Every 12 months they are reassessed and are required to fly a certain amount of hours in a 3 month period to maintain currency.

### What cameras do they carry?

The systems have the option of carrying the following cameras:

- Dual daylight/thermal camera (4 x digital zoom)
- Daylight HD camera (4 x digital zoom)
- Daylight HD camera (30 x Optical Zoom)

### What do we use drones for?

We are using drones to:

- Assist with searches for missing people and persons at large.
  - Assist with investigations into road traffic collisions, major crime incidents and Industrial Accident investigations.
  - Assist with event planning and management
  - Provide situational awareness to officers and Commanders in a variety of policing situations.
- The drones are only deployed for specific operational tasks and are not used for general patrol/surveillance. They are not patrolling the skies on a daily basis.

### **How do we think drones will help deliver a policing service?**

Using drones will help us:

Use our resources more effectively by having the right resources in the right place at the right time to resolve incidents quickly.

Enhance the safety of the public and police by deploying a drone into situations which would otherwise involve risks to individuals.

Provide good quality evidence to assist apprehension and prosecution of offenders.

Enhance joint working with other Emergency Services and external partner agencies.

### **Do the police have to comply with existing regulation and legislation?**

Yes. The Emergency Services need to work within the existing legislation and regulation in respect of drone use. We operate in accordance with our operating permission granted by the Civil Aviation Authority (CAA).

### **What about privacy and Data Protection?**

We have developed a specific Privacy Impact Assessment for police use of drones and a self-assessment document to test compliance against the CCTV codes of practice.

Lancashire Police are compliant with the new GDPR legislation.

**Drone law in the UK**
